What is a School Compact?
A school compact is a written agreement between a school, its parents and scholars. The compact gives strategies to help support scholars’ success in school.

The compact explains what families and schools can do to make a connection for the student between the two worlds they live in – home and school.

Parents, scholars and the school work together to create a group of ideas that can assist the student with realizing their potential.

Wayside: Sci-Tech High School scholars participate in the Title 1 program, along with their families agree that this compact outlines how the parents, school staff, and scholars will share the responsibility for improved scholar academic achievement, as well as describes how the school and parents will build and develop a partnership that will help children achieve the state’s high standards.
